Sale of Used Machines and Vehicles

Dear Sir or Madam,

In order to ensure smooth sale of machines and vehicles for both parties, we kindly ask you to pay attention and to follow the below information regarding the sale procedure:

- 1.) Machines and vehicles for sale are parked at the designated locations of STRABAG BMTI.
- 2.) The machines and vehicles may only be inspected on Tuesdays and Thursdays during the regular working hours. The purchased machines and vehicles can only be collected from Monday to Thursday. In both cases, it is necessary to arrange an appointment beforehand. For these purposes, please get in touch with the designated contact partner for the respective country.
- 3.) Your offer is non-binding both for you and for us and does not establish any mutual obligations. A purchase agreement is created solely based on an individual agreement between you and our company. Legally binding declarations and the conclusion of a purchase agreement using online communication means are excluded.
- 4.) Your non-binding offer serves only as a confirmation of your potential interest to buy the machine or vehicle for a certain price. If we find your offer interesting, we will get in touch with you to agree on the further steps. The bidder who offered the highest purchase price will always be prioritised. The seller reserves the right not to accept the highest purchase price offered if it fails to reach the required value of the purchase price.
- 5.) General information:
If the parties agree on the price of the machine or the vehicle and conclude a purchase agreement, such machine or vehicle can be collected from the respective business premises from Monday to Thursday during the regular working hours provided that the purchase price has been paid in full. The buyer must notify the seller of the exact time of collection beforehand. The machines and vehicles are handed over on the premises of STRABAG BMTI and are not dismantled for transport. If you intend to load the acquired machine or vehicle or have any other requests, please get in touch and discuss such matters with your contact person beforehand. STRABAG BMTI is not responsible for the transport of the purchased machines or vehicles.

6.) The collection must take place immediately, however no later than 7 workdays after the seller received the payment. After the 10th workday, a parking fee amounting to € 1.50 / m² per 1 day will be charged. Longer collection periods must be agreed individually.

7.) If you have any questions or request, please do not hesitate to contact us by email or phone.

STRABAG BMTI s.r.o.
